

Similarly, Table 12 demonstrates that the whites who left the city after 1897 held an average OCCSCORE of 25.62, several points less than those held by whites who stayed or were recorded in the 1900 directory. The SEI for movers was significantly lower than those for whites that remained in the city. Most of the whites that moved held an OCCSCORE of between 20 and 40.

Comparison of the white and black OCCSCORES shows that black OCCSCORES and SEI scores were significantly lower than those of whites. For both racial groups, the highest paying workers only represented a small fraction of the workforce – 2% of the black population and 5% of the white.
